

Dennis E. O'Brien
Director, Competitive Sourcing/A-76 Office
Department of Energy

Denny O'Brien, is the Director of the Department of Energy's (DOE) Competitive Sourcing/A-76 Office. His office is responsible for leading the Department's A-76 Program and its effort in fulfilling the President's Management Agenda Competitive Sourcing Initiative; and collects and analyses the FAIR Act Inventory.

Currently, DOE's A-76 program includes a mix of single function-single location studies and studies on multiple functions involving the entire Department. The Competitive Sourcing/A-76 Office develops DOE policies and procedures for A-76 studies; managing and guiding the day-to-day operations of the total program.

O'Brien came to DOE from the Vector Research Institute where he was a Senior Program Manager responsible for DoD logistics, acquisition and production program management. Previously, he worked for over five years with the Raytheon Technical Services Company (RTSC) where he was first a Program Manager for test and evaluation range operations and then a Business Development Manager for information technology. He was directly responsible for contractor opportunities for testing at White Sands Missile Range. During his tenure with RTSC he was the development manager for US Army IT and logistics opportunities, with an emphasis on the Army Materiel Command and the Navy's NAVSEA.

Prior to joining Raytheon, Denny O'Brien completed a 30-year career as an officer in the United States Army. He commanded ordnance organizations from the platoon to the brigade level. His last assignment was as the Deputy Commander White Sands Missile Range, New Mexico. His military assignments were primarily in the munitions, procurement and research/development fields. He earned a Professional Designation in Contracts from the Air Force Institute of Technology, was a warranted Contracting Officer and a US Army-certified Program and Logistics Manager. He was also a member of the Army's Acquisition Corps.

Denny holds a B.A. from the University of Nebraska and an M.A. in Logistics Management from Central Michigan University. He was a faculty member at the Air Force Institute of Technology, is a graduate of the Industrial College of the Armed Forces, and served as a Senior Fellow at the National Defense University. He resides in Washington, DC, with his wife, Margaret, who is also a DOE employee, and has two sons, Richard and Michael.
